

Throw overboard

## Liferaft - VIKING, 20DK+, throw overboard (20 pers.), extended service interval

Item no.: L020D027200NCA

If you are looking to extend your annual liferaft servicing intervals to 30 months - without compromising safety readiness or compliance, VIKING S30 is the best choice!

- The crew can handle the annual onboard inspection by following 3 simple steps
- VIKING has more than 10 years of experience with extended service interval liferafts
- More flag state approvals than any other brand
- Same packaging and cradle/rack mounts as our standard liferaft range
- No computer or electrical outlet is required with VIKING's unique testing system - so no special ATEX approval is required

The VIKING S30 is a complete range of liferafts with an extended service interval in all types and sizes. They're serviced using a combination of annual onboard inspection and standard service at 30 months at a certified VIKING S30 servicing station.

The VIKING throw overboard liferaft comes in sizes from 6 – 35 persons and is available with emergency pack SOLAS A or B. It can be sourced directly through our shop or as 'liferaft exchange' with a Shipowner and Offshore Safety Agreement.

### Features:

- High durability with an expected lifespan of 15-20 years
- Can be deployed at temperatures as low as -30°C
