## Electric car fire blanket PRO, incl. smartbag, Bridgehill

Item no.: 1150585

---

The Bridgehill fire blankets are the most efficient way to isolate car fires in electric vehicles.

- Fast – isolates fire in seconds
- Effective – extinguishes fire in minutes
- Simple – can be used by anyone
- Eco-friendly – no toxic fumes or liquids

---

With years of testing and cutting edge technology, Bridgehill has developed car blankets such as the PRO blankets which can contain the flames, smoke and toxic fumes in a car on fire in seconds.

The Bridgehill car blanket PRO is reusable up to 30 times and comes packed in a smart bag.
