

Electric car fire blanket STANDARD, incl. smartbag, Bridgehill

Item no.: 1155147

The Bridgehill fire blankets are the most efficient way to isolate car fires in electric vehicles.

- Fast – isolates fire in seconds
- Effective – extinguishes fire in minutes
- Simple – can be used by anyone
- Eco-friendly – no toxic fumes or liquids

The Bridgehill Standard Fire blanket is ideal for spaces with a high concentration of cars such as Ro/RO and Ro/Pax vessels.

The standard blanket is suitable for normal size vehicles including SUV. The blanket is a single use blanket and is delivered in a smart bag.
